FREE SQUEEGEE INCLUDED

Clean your containment mat in a matter of minutes with this easy-to-use, telescopic squeegee!

HEAVY DUTY FABRIC

AutoFloorGuard Containment Mats use heavy duty, commercial-grade, woven PVC fabric that can handle your region's toughest conditions. This fabric is designed for quality and durability.

BUILT-IN CONTAINMENT EDGE

All AutoFloorGuard Containment Mats have a specially-designed edge that keeps its shape, even after constant use. Our reinforced, thermal-welded, watertight seams combined with our commercial-grade PVC fabric will not allow liquids to leak through.

HEAT-SEALED WATERTIGHT SEAMS

All AutoFloorGuard seams are reinforced and thermal welded to provide durability and longevity. AutoFloorGuard Containment Mats are designed to capture more liquid, mud, oil and snow than any other product on the market.

STAY-PUT-CORNERS

Don't worry about your mat ever moving again! Our high quality Stay-Put-Corners ensure your AutoFloorGuard stays in place.
